OZ MACHINE USA

ALTAIR

Window & Door Inspection Table

A pneumatic glazing and inspection table for finished windows and doors. It raises the unit for fast glass installation, parallel block clamps set the balance, and glazed units roll off toward packaging.

13.8–106.3"	Pneumatic	Parallel	Rollers
Frame width range	Lifts the unit for glazing	Block clamps for balance	Transfer to packaging

KEY FEATURES

- + Fast glass installation in windows and doors
- + Parallel block clamps to set the balance
- + Raises the unit for easier glazing
- + Glazed units transfer to packaging on rollers
